What the client receives

BUSINESS HARD BENEFITS

- Estimated payment/cashflow opportunity
- Estimated accounting/admin capacity value
- Estimated net monthly and 12-month benefit after proposed program cost

BUSINESS SOFT BENEFITS

- Cleaner reference and posting data
- Less reconciliation and remittance chasing
- Stronger proof integrity, audit trail and exception visibility

PAYOR BENEFITS THE CLIENT CAN

OFFER

- Dollar savings when a bank/cash option is offered
- No GMT fee to the payor
- Card rewards/float where a permitted card route is available
- Clear choice, exact reference, direct payment and cleaner confirmation

Fast-Track sequence

01

Score + intake

Business profile, payment friction and accounting workload.

02

Approval

Private report and activation CTA from initial submission.

03

Accept

Client accepts the report and requests activation.

04

Configure

Formal eSign, fee authorization and first workflow.

05

Verify

Optional evidence and live proof refine actual value.

Controls: Supporting documents are optional for provisional program activation. Business identity, restricted-category, agreement and authorization controls remain. No evidence-based success-share billing without verified support. Customer/payor principal routes directly to the merchant or approved provider. Initial dollar values are estimates and are not guaranteed.
